

Wine O'clock

Tasmanian Wine...

Tasmania has a moderate maritime climate, cooled by prevailing westerly winds off the Southern Ocean, providing conditions free of extremes in temperature. Mild spring and summer temperatures, with warm autumn days and cool nights allow the grapes to ripen slowly on the vine, resulting in maximum varietal flavour development. This is achieved without losing that essential natural acidity that gives wine both freshness and balance.

SPARKLING WINE

Josef Chromy NV | TAS 60

WHITE WINE

Freycinet Riesling | TAS 44

Holm oak Riesling | TAS 10 40
